

ANNOUNCEMENT

2009 DSATools™ User Group Meeting

Powertech is pleased to announce the 2009 DSATools™ user group meeting. This annual event provides a forum for Powertech and the DSATools™ users to discuss and exchange ideas for the development and applications of DSATools™ software. We will give an overview for Powertech's latest software products, demonstrate their applications, and report on new and up-coming developments.

In addition to discussing the general features and applications of DSATools™, we will focus in this year's meeting on the on-line dynamic security assessment capabilities of DSATools™ including our on-line DSA integration tool DSA Manager™. This will cover topics such as

- Scoping an on-line DSA system
- Selection of solution methods and application features
- Model and data development
- Result visualization
- Implementation process
- Integration with EMS
- Application examples including presentations by users of Powertech's on-line DSA systems

When – Thursday and Friday, September 10-11, 2009.

Where – Hyatt Regency Boston, 1 Avenue De Lafayette, Boston, MA, USA.

Who – The DSATools™ user group meeting is open to everyone including existing DSATools™ users as well as those interested in advanced software for system planning and operation. This event should be of great interest and value to people responsible for the deployment of on-line dynamic security assessment systems for utilities and transmission system operators.

Cost – Free! You will be responsible for your transportation and hotel expenses.

For more information – Please check our website at www.dsatools.com (under News | Events) for details of this event, registration, and hotel accommodation information. You can get the registration form from www.dsatools.com/downloads/2009_UGM_Registration.doc. If you have any questions, please email dsainfo@powertechlabs.com.

We look forward to seeing you in Boston!
