

ANNOUNCEMENT

2018 DSATools™ User Group Meeting

Powertech is pleased to announce the 2018 DSATools™ user group meeting. This annual event provides a forum for Powertech and the DSATools™ users to discuss and exchange ideas for the development and applications of DSATools™ software. We will give an overview for Powertech's latest software products, demonstrate their applications, and report on new and up-coming developments. There will be presentations made by our users on their applications and experiences using DSATools™.

After the user group meeting, there will be a tour of **Peak Reliability**. During the visit, Peak Reliability will describe the reliability requirements for operation of the WECC power system and the application of its on-line Dynamic Security Assessment system using DSATools™. This visit is open to all participants of the user group meeting, subject to security clearance by Peak Reliability.

If you wish to share your experience in applying DSATools™ by making a presentation at the user group meeting, please contact us (dsainfo@powertechlabs.com).

- When:**
- Thursday September 27 and September 28 (morning), 2018 for the user group meeting
 - Friday September 28, 2018 (afternoon) for the Peak Reliability tour. Bus transportation will be arranged to those interested in joining.

Where: Hyatt Regency at the Colorado Convention Center, 650 Fifteenth Street, Denver, Colorado

Who: Open to everyone including existing DSATools™ users as well as those interested in advanced software for system planning and operation studies.

Cost: Free! You will be responsible for your transportation and hotel expenses.

Please RSVP to dsainfo@powertechlabs.com by August 31, 2018.

For more information – Please check our website at www.dsatools.com (under News | Events) for details of this event, registration, and hotel accommodation information. You can register online at http://www.dsatools.com/downloads/2018_UGM_Registration.doc. If you have any questions, please email dsainfo@powertechlabs.com.

We look forward to seeing you in Denver, Colorado!
